Abstract of Proposed Collection

The Department proposes requesting the following information, if not already included in an application, from a subset of visa applicants worldwide, in order to more rigorously evaluate applicants for terrorism or other national security-related visa ineligibilities:

- Travel history during the last fifteen years, including source of funding for travel;

- Address history during the last fifteen years;

- Employment history during the last fifteen years;

- All passport numbers and country of issuance held by the applicant;

- Names and dates of birth for all siblings;

- Name and dates of birth for all children;

- Names and dates of birth for all current and former spouses, or civil or domestic partners;

- Social media platforms and identifiers, also known as handles, used during the last five years; and

- Phone numbers and email addresses used during the last five years.

Most of this information is already collected on visa applications but for a shorter time period, e.g. five years rather than fifteen years. Requests for names and dates of birth of siblings and, for some applicants, children are new. The request for social media identifiers and associated platforms is new for the Department of State, although it is already collected on a voluntary basis by the Department of Homeland Security (DHS) for certain individuals. Regarding travel history, applicants may be requested to provide details of their international or domestic (within their country of nationality) travel, if it appears to the consular officer that the applicant has been in an area while the area was under the operational control of a terrorist organization as defined in section 212(a)(3)(B)(vi) of the Immigration and Nationality Act, 8 U.S.C. 1182(a)(3)(B)(vi). Applicants may be asked to recount or explain the details of their travel, and when possible, provide supporting documentation.

This information collection implements the directive of the President, in the *Memorandum for the Secretary of State, the Attorney General, the Secretary of Homeland Security* of March 6, 2017, to implement additional protocols and procedures focused on “ensur[ing] the proper collection of all information necessary to rigorously evaluate all grounds of inadmissibility or deportability, or grounds for the denial of other immigration benefits.” Consular posts worldwide regularly engage with law enforcement and intelligence community partners to identify sets of post applicant populations warranting increased scrutiny. The additional information collected will facilitate consular officer efforts to immediately apply more rigorous evaluation of these applicants for potential visa ineligibilities. In accordance with existing authorities, visas may not be denied on the basis of race, religion, ethnicity, national origin, political views, gender, or sexual orientation.

The estimated number of respondents represents the estimate of relevant State Department officials that 0.5% of U.S. visa applicants worldwide, or in the range of 65,000 individuals per annum, will present a threat profile, based on

individual circumstances and information they provide, that will lead U.S. consular officers at posts around the world to conclude the applicant warrants enhanced screening that takes into account the information that is proposed to be collected. The estimate will be updated in the next request to continue collecting the information based on experience reported by overseas posts. Failure to provide requested information will not necessarily result in visa denial, if the consular officer determines the applicant has provided a credible explanation why he or she cannot answer a question or provide requested supporting documentation, such that the consular officer is able to conclude that the applicant has provided adequate information to determine the applicant's eligibility to receive the visa. The collection of social media platforms and identifiers will not be used to deny visas based on applicants' race, religion, ethnicity, national origin, political views, gender, or sexual orientation.

Methodology

Department of State consular officers at visa-adjudicating posts worldwide will ask the proposed additional questions to resolve an applicant's identity or to vet for terrorism or other national security related visa ineligibilities when the consular officer determines that the circumstances of a visa applicant, a review of a visa application, or responses in a visa interview indicate a need for greater scrutiny. The additional questions may be sent electronically to the applicant or be presented orally or in writing at the time of the interview. Consular officers will not request user passwords and will not attempt to subvert any privacy controls the applicants may have implemented on social media platforms. Consular officers are directed not to engage or interact with individuals on or through social media; not to violate or attempt to violate individual privacy settings; and not to use social media or assess an individual's social media presence beyond established Department guidance.

David T. Donahue,

Acting Assistant Secretary, Bureau of Consular Affairs, Department of State.
