Subject: USCIS Message: Avoid Scams - Haitian Family Reunification Parole (HFRP) Program

Dear Stakeholder,

On October 17, 2014, U.S. Citizenship and Immigration Services (USCIS) announced a limited [Haitian Family Reunification Parole Program](#) to help unify families and promote safe, legal and orderly migration from Haiti. However, this program will not begin until early 2015.

Until then, we strongly urge Haitians who may want to apply under this program to be careful of immigration scams. Dishonest people may try to trick potential applicants and take their money by saying they will help them apply.

No one can apply for the program until it begins early next year. Those Haitians who will be eligible for consideration under the program will be contacted in writing with information on how to apply. We will post announcements on www.uscis.gov and inform the Haitian community when we start this program.

Please read our newest flier, available in [English](#), [French](#) and [Haitian Creole](#), about how to avoid immigration scams and share it with your friends and family members. To learn more about common scams and where to report scammers, and how to find authorized assistance with immigration services, please visit www.uscis.gov/avoidscams.

Kind regards,

U.S. Citizenship and Immigration Services
